BHUMIKA CG **HYDERABAD - INDIA| cgbhumika@gmail.com | LinkedIn | GitHub**

MIS Executive | Data Analyst | Excel | SQL | Power BI

CAREER OBJECTIVE

Motivated and detail-oriented professional with a Master's in Computer Science, seeking an entry-level role. Restarting my career after a break, with recent upskilling in Excel, SQL, Power BI and Python. Eager to contribute through data-driven insights, reporting, and operational support.

SKILLS

- Excel – Pivot Tables, XLOOKUP, Power Query, Data Cleaning
- SQL – Joins, CTEs, Window Functions, Aggregations
- Power BI – Data Modelling, DAX, Power BI Services, ETL, Dashboard Design
- Python Basics – Pandas, NumPy, Matplotlib, BeautifulSoup
- Communication skills | Attention to detail

PROJECTS

Sales & Finance Analytics Report - [Excel | Pivot Table | Power Query] **GitHub Link**

- Built P&L dashboard for FY 2022. Ensured data accuracy in reports.
- Identified monthly sales trends and revenue patterns, communicated insights clearly.
- Automated data cleaning using Power Query, saving around 4 hours of manual effort.

EDA on Walmart Sales - Sales Analysis - [MySQL] **GitHub Link**

- Performed exploratory data analysis (EDA) using SQL queries to uncover key sales trends, seasonal patterns, and store-wise performance.
- Generated insights on factors impacting sales, such as holidays, store type, and weekly sales variations.

Consumer Goods Analytics - Ad-hoc-Insights - [MySQL | Power BI] **GitHub Link**

- Delivered detailed insights on 10 ad-hoc business requests to executive management, using SQL to query a million-row database, resulting in a 15% increase in decision-making speed for executive management.
- Insights and findings from the presentation reduced overall operational costs by approximately 10%.

Business 360 - Brick & mortar and ecommerce - [Power BI | SQL | Excel | Dax Studio] **GitHub Link**

- Deployed DAX-based calculation models, resulting in a 30% increase in report accuracy and providing users with more nuanced, flexible data insights.
- Developed data models and visualizations in Power BI, and optimized the report with DAX studio which improved the performance of the report by 5%.
- Developed a dashboard that enabled AtliQ Hardware to analyse sales trends, driving a projected 10% revenue acceleration and a 20% reduction in data-related expenses.

Revenue Analysis – Hospitality Domain - [Power BI | SQL] **GitHub Link**

- Analysed Revenue trends across weekends, weekdays and seasons.
- Designed a Power BI dashboard to understand Booking Status, Ratings and their impact on Revenue.
- Analysed KPIs – Occupancy Rate, Revenue Per Available Rooms, Realization on weekends and weekdays.

Web Scraping - [Python] **GitHub Link**

- Scraped structured data from Wikipedia using Beautiful Soup to collect the list of the largest companies in the United States by revenue (2023).
- Parsed and transformed the scraped HTML data into a Pandas - DataFrames for analysis.
- Exported the final dataset to a Companies.csv file for further processing.

CERTIFICATIONS:

- Codebasics DA Bootcamp – Excel, SQL, Power BI, Python (In Progress)
- Excel Certified – Codebasics **GitHub Link**
- SQL Certified – Codechef **GitHub Link**
- Power BI – Codebasics **GitHub Link**
- Data Science Professional – Odin School **GitHub Link**
- Python for Data Analysis – Great Learning **GitHub Link**

EDUCATION:

- MCA, CGPA - 7.7, Karnataka University, Dharwad - Jun 2013.
- BCA, CGPA - 7.3, Karnataka University - Jun 2010.

LANGUAGES:

- English, Hindi, Kannada, Telugu
